

Centre Wellington Hydro Ltd. is obligated, as a distributor of electricity, to supply every person connected to our distribution system (The Electricity Act. 1998). Also, as a Provider of Standard Supply Service, and according to the Act, we must disclose the System-Wide Electricity Supply Mix. The Electricity Supply Mix, for an electricity product, is the combination of power sources used to generate the product. For details please refer to the accompanying electricity facts chart.

Electricity Facts

System-Wide Electricity Supply Mix* (2017)

- Water Power – 25.6 %
- Alternative Power Sources – 9.8 %
 - Solar PV 2.2 %
 - Wind 7.2 %
 - Biomass 0.4 %
 - Waste 0 %
- Nuclear Energy – 60.1 %
- Natural Gas** – 4.0 %
- Other – 0.3 %

*Includes both transmission and distribution-connected/embedded generation

**Includes dual-fueled facilities that are predominantly natural gas (e.g. Lennox Generating Station)

Note: Figures may not add to 100% due to rounding.
