April 12, 2021

**Centre Wellington Hydro Media Release to our Customers
Supporting Earth Day on April 22, 2021**

CWH is committed to serving our customers and promoting environmental awareness in our community. This year we are partnering with Neighbourwoods in recognition of Earth Day 2021 on April 22nd. For the April billing period CWH will purchase and plant a tree in our community for every customer who signs up for paperless billing!

Between April 19th - May 31st, 2021 CWH will purchase and plant a tree for every customer who registers for Customer Connect and paperless e-Billing. Not only is e-Billing convenient, but it helps to save the energy and cost to print, handle, and deliver paper invoices to homes and businesses. Customer Connect gives customers 24/7 access to their CWH electrical account from any mobile device.

With Customer Connect, download and save your bills at any time, review past electrical usage and trends and compare billing history. Save even more time by paying your monthly electrical bill through a Pre-Authorized Payment Plan or subscribe to e-Billing and make payments from your laptop or phone!

Full details and instructions on how to register for Customer Connect are available through our website at www.cwhydro.ca. Ready to Register? Contact our office through email only at **enquiries@cwhydro.ca** and one of our great staff will help you through the process.

Although our office remains closed to the public during the current state of emergency Pandemic, our staff continue to assist you with customer account enquires through email: enquiries@cwhydro.ca or phone: 519.843.2900, Monday to Friday, 9:00am – 4:00pm.
